## Observations...

By UDELL  
Starting Monday, June 4, at 9:00 a.m., Miss June Breath will start giving free swimming instructions to children in the beginners and intermediate groups on Breath's beach. The classes which will be held from 9:00 to 10:00 a.m. Monday through Friday, will include divisions for beginners, seven to nine age bracket, and intermediates, nine to 12 years. Miss Breath will be assisted by Miss Nannette Arceneaux and Mrs. L. A. Rogers. All parents should enroll their children in swimming classes for their own protection.

In an article in Monday's Times-Picayune it was stated that Harold E. Misteel, Detroit coal executive and amateur pilot, took off from the Detroit seaplane base for Matamoros, Mexico, Saturday to get ready for a try at a new flight record. The thing that was the most interesting part of the article was the statement that the present national and international light seaplane records were set by Henry E. Chapman of Bay St. Louis in 1939 with a flight of 1163.8 miles from Jamaica Bay, N. Y., to New Orleans, La. From Mexico, Misteel will attempt a nonstop flight back to Windsor, Ont., as soon as he gets a favorable tail wind. He hopes to set a new world's record for a light seaplane nonstop flight. Gas tanks in the pontoons of his plane will enable him to carry 127 gallons on the 1405 mile trip. His course will take him over Houston, Shreveport, Memphis, Evansville, Indianapolis, Toledo and Detroit.

This month, Camp St. Joseph, Camp Stanislaus and Kern's Camp for Boys located on the Jordan River will start summer activities. S. J. A. will start camp Sunday, S. S. C. June 22, and Kern's June 16. Kern's Camp is located two and a half miles from Highway 90, on the Nicholson Road. Albert J. Kern is director.

The South Mississippi Wool Growers Association board of directors and sales committee will meet at the Courthouse in Wiggins Tuesday, June 17, at 10:00 a.m. Wool buyers from all over the United States have been notified and will be present to give sealed bids.

The Fish and Game Commission stocked several streams in Hancock County Wednesday with a total of 50,000 fish, a fisherman's dream. Streams stocked were Bayou La Croix, McCloud's Bayou, Bayou Talla. Approximately 40,000 fingerlings were distributed between the three spots, and the rest were brood size fish.

## BLOOD NEEDED TO SAVE LIVES

Everyone who is eligible physically has the chance to serve his country and country when the Red Cross Bloodmobile arrives here June 23 for blood donations.

This blood is urgently needed on the Korean war front and here at home for local needs.

The average amount of blood needed to supply a wounded soldier is nine pints. This means that nine people here at home must donate a pint of their blood to fill this one soldier's requirements. The situation has become so critical overseas that at times convalescing soldiers are called upon to give blood so that a buddy might live.

In the county the blood is used when needed from the local supply of blood on hand. It is only social justice to give blood if one can. The bloodmobile will be at the Bay St. Louis Youth Center from 12:00 to 5:30 p.m. on the 23rd.

**Jitney-Jungle Installs Modern Air Conditioning**  
Jitney Jungle food store, owned and operated by Mr. and Mrs. J. R. Scharff, announces installation and commencement of air conditioning. This is the first grocery store in Hancock County to introduce air conditioning for the customer's comfort.

The cooling system conditions and filters the air besides cooling it. The system is one of the finest on the market and Mr. Scharff states that the store will be kept just comfortable cool, not cold so the customers will not feel the heat when they leave the store.

Other improvements made at Jitney Jungle include the laying of asphalt tile flooring, installation of a third check-out counter and additional shelves. On order for the store are two additional frozen food cases which will augment the self-service facilities of the establishment.

#### Blue Cross Enrollment Progressing

"Surprise and pleasure" at the extent of public interest in the community enrollment for Blue Cross-Blue Shield protection for hospital and surgical bills were expressed today by Mrs. Myrtle Santa Cruz superintendent of King's Daughters hospital.

Since the community enrollment opened last Monday at headquarters in the hospital, Mrs. Santa Cruz said that on the basis of interest shown, she is confident that the program is meeting a true community need.

"Our hospital and the medical staff of the hospital understand the desire to be of service," Mrs. Santa Cruz commented. "It is with surprise and pleasure that we receive evidence of keen and wide spread community interest."

She pointed out that literature and application cards are available at the King's Daughters hospital and that any interested person may visit the community enrollment headquarters there for Blue Cross information.

"Tabulation of the results of the Community Enrollment will not be taken until after the program ends June 23. However, a number of individuals and families already have applied for Blue Cross protection through the community group and the degree of interest shown by many others makes us certain that the outcome will exceed our original expectations."

## THE FLAG'S MEANING

We Americans have always been thrilled by the sight of our flag flying majestically from a tall flagstaff. Why should civilized, peace-loving people take such pride in the flag—only a piece of cloth? There is good reason: behind that flag is history—a beautiful history of the progress of free men. As the country has grown, so has the flag. The number of stars in the flag's field of blue has climbed from 13 to 48. The respect to the flag has mounted from that of a few stouthearted settlers on the East coast to other leading nations throughout the world.

If there has been one thing that has linked America's past and present it has been its flag. It has been a boundless source of morale for our fighting troops deterring aggression, and a representative of truth and character to this country's youth.

Even though we feel pride and find moral strength in our flag, showing that there is definitely a nationalistic trend in our thinking, we have proved ourselves unaggressive and against military dominance. The United States has captured and occupied aggressive nations only to return their governments to the people for a fresh try at democracy. Sometimes these foreign nations have succeeded at building themselves into democracies and our allies. Sometimes they have failed us and turned again into enemies; but, always these vanquished foes have been given the right to plot their own destinies. That is what our flag stands for. That is what has made this country and its government strong. The people have guided their own ship of state.

The "American" flag is clean. Its simple, impressive design stands as a ray of intrepid faith to our citizens in their government's work for international harmony. Under the red, white and blue, the United States has emerged healthy, wealthy and we pray, wise.

No, the flag is not just a piece of cloth. It is the story of a great nation; it is the story of heroes and villains, but always the story of people striving for and striving to keep precious freedoms.

It is the public's responsibility in maintaining its rights that prompted the late Charles Evans Hughes, one time chief justice of the Supreme Court to write stirring prose: "The flag means that you cannot be saved by the valor and devotion of your ancestors; that to each generation comes its patriotic duty; and that upon your willingness to sacrifice and endure as those before you have sacrificed and endured, rests the national hope."

## More Money For Some Former Prisoners of War

The President on April 9 approved an Act of Congress known as Public Law 303 which provides for the payment of \$1.50 a day to World War II veterans for each day they were subjected to inhumane treatment or forced labor while held captive by the Japanese or Nazis.

This payment of \$1.50 a day to former prisoners of war for each day of inhumane treatment or forced labor will be in addition to the \$1.00 a day previously paid for each day of captivity.

In those instances where the servicemen died in prison or since his release, payment of this \$1.50 a day will be made to his widow, child or children or parents in the order named.

Payment of this benefit will be made from funds of enemy countries seized during World War II and not from Federal tax funds.

Korean conflict prisoners are not eligible for these POW payments.

Claim forms for the \$1.50 a day benefits are not ready. These will be available through the State Veterans Affairs Commission, Box 131 Jackson, Mississippi, when released by the War Crimes Commission.

## STUDY VALUE OF NITROGEN USED ON SUMMER PASTURES

Research Indicates Increased Yield Produced By Nitrogen Is Profitable If It Prevents Use of Bought or Stored Feeds

State College, Miss.—Use of nitrogen to increase the carrying capacity of pasture in late summer has been studied in tests conducted by the Mississippi Agricultural Experiment Station at five locations during the past two years. Both anhydrous ammonia and ammonium nitrate were used in the experiments.

Discussing the question of profit from nitrogen on summer pastures, agronomist who conducted the experiment said:

"Yield increases from nitrogen were not phenomenal and the profitability of such increases would depend on conditions facing the farmer at the time the additional forage becomes available. It is believed however, that if the additional forage produced by fertilization prevents the use of tanning milk production or beef weights, then the use of nitrogen would be profitable.

Tests were conducted at State and at branch Experiment Stations at Verona, Holly Springs, Oakley and Poplarville.

Results of two years' work with anhydrous ammonia and ammonium nitrate on the production of forage by summer pasture grasses indicate that:

1. For best results nitrogen should be applied in June.
2. Single applications of nitrogen produce as much total forage as do split applications.
3. Twenty-four inch spacing of anhydrous ammonia was so efficient as 16-inch spacing.
4. Little growth of grass was obtained after September 15, with or without the use of nitrogen even with an ample supply of moisture.

## Mathes Fans 10 St. Claude Batsmen In Dazzling No-Hit, No-Run Game; Teammates Get 13 Hits In 12 - 0 Win

Thirteen year old Larry Mathes entered the mythical hall of fame Sunday by pitching the first no-hit, no-run game of his baseball career at the expense of the St. Claude Hardware team of New Orleans.

Young Mathes coasted along behind his teammates and himself as well. His fast-breaking curve ball proved to be the best weapon in his array of pitches. He sat down 10 of the Crescent City boys via the strike-out route.

Larry was aided in his brilliant performance by some sparkling fielding on the part of Ronnie Hendrickson, second baseman, who went deep into the hole behind first to make two stops which seemed as sure base hits.

The Bay boys led by Donald Strong unleashed a torrent of base hits in all five innings to give Mathes an easy win. Strong was tops with 3 for 3, one of which was a clothesline triple down the left field line in the first inning. He was followed by Gex, Hendrickson, Mathes and Douson, each with 2 for 2.

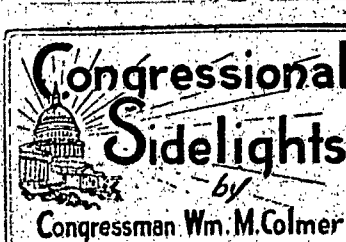

For the third consecutive week, the ball game was viewed by only

Florence Campbell, second vice-president; Mrs. Claire Bourgeois, corresponding and recording secretary; Mrs. Alphonsine Sabich, attendant; Mrs. Hilda Valberde, assistant attendant; Mrs. Mamie Delmas, chaplain; Mrs. Lena Henry, treasurer; Mrs. Anna Palmisano, auditor; Mrs. Mary Lizana, captain; Mrs. Velma Carter musician.

Mrs. Palmisano presented gifts to the distinguished officers, members of the drill team and other delegates present.

### MR. EISENHOWER

The General of the Army, General Dwight D. Eisenhower, surrendered his command of the Western Allies Army in Paris last week.

In twenty-four hours thereafter he landed at the airport in Washington, where he received the traditional military salute accorded a military hero. Hardly had the sound of the seventeen-gun salute faded out before he had crossed the Potomac to the White House. There he made his final report to his Commander-in-Chief, the President of the United States. The next day he wound up his affairs at the Pentagon and resigned from the Army, thereby voluntarily giving up his \$20,000 a year job. On the third day he discarded his five-star military uniform and put on his civilian clothes. Thus the Commander-in-Chief of the Allied Forces in World War II, the hero of the Normandy Invasion, who had received the acclaim of the victors and the vanquished, General Dwight D. Eisenhower, became simply Mr. Eisenhower, a plain American citizen.

On the fifth day of his busy schedule after bidding farewell to his comrades in arms and a grateful European people, Mr. Eisenhower was firing the opening gun in his campaign for the Presidency of the United States. And thus

by the same token, the greatest military hero of his age became just another American citizen, seeking political office at the hands of the American people.

PLATFORM On the sixth day candidate Eisenhower held a press conference where he engaged in a new type of battle with over seven hundred newspaper reporters, all eager to test the metal of the old hero of many battles on a new and to him foreign type of a battleground, the forum of American politics. For months these representatives of the press had looked forward and the

country generally, both friend and foe, had anticipated this opportunity to have the answer to the often repeated question, "But who knows what Ike stands for?" At last that question has been answered now. For, candidate Eisenhower was not spared or deferred to, as General Eisenhower had been by these sharp-witted scribes of the press.

It is generally agreed that his answers as candidate Eisenhower were even more forthright than the answers to the same question had been by Gen. Eisenhower because of matters of national security. He took them all in stride from the FEPC to the President's firing of MacArthur, his political enemy. His open declaration of opposition to a com-

sory FEPC; his conviction for state's rights as against a strong centralized Federal Government; and his opposition to socialized medicine must have raised a question mark in the minds of many a Southern Democrat, even as it is also bound to have raised an equally sharp question mark in the minds of many of his so-called Progressive backers and the Republican politicians generally. The big question now is, can Mr. Eisenhower, as candidate Eisenhower, with such deep convictions openly expressed, best the politicians in the Republican Party and receive the nomination at the convention.

Capt. and Mrs. Fred Deal had her brother from New Orleans visiting them recently.

Mr. and Mrs. Jaubert Fuch and family will spend the weekend in New Orleans where the children will enjoy the fun at Pontchartrain Beach.

Mr. and Mrs. Arthur Scafide had as their guests over the weekend Mr. and Mrs. Joe Pravata and son, Joel, and Mrs. Joe Pravata Sr. of New Orleans; Mr. and Mrs. John Beninate of Algiers; Miss Mary Francis Scafide and Arthur Scafide Jr., of New Orleans and Hammond, Louisiana, respectively.

## By - Gone Days

**FIFTY YEARS AGO**  
Government receipts for May exceeded expenditures by over \$10,000,000. But this month ends the war taxes, and the surplus revenue will be greatly reduced during the next fiscal year.

**TWENTY-FIVE YEARS AGO**  
Emile J. Cox and Emile Perre, of Bay St. Louis, have become the owners of the city waterworks of Waveland, by purchase from Mayor George Herlihy.

"We made the purchase as an investment," says Mr. Cox, "and we plan in the meantime to build up the service, and extend the mains to any reasonable point. There are many homes being built in Waveland and there is much demand for artesian water."

The day of the dangerous surface well is gone and the new system promises to flourish.

**TEN YEARS AGO**

Mr. Pat Rooney has accepted the position of band director of the Bay High School Band.

Mr. Rooney is the former director of the Carthage, Mississippi High School band. He was quite successful in the direction of this band, having taken part in the Southern Regional band concert at Nashville, Tennessee, where his band won superior ratings in playing, marching and sight reading.

From all indications, Mr. Rooney's work in Bay St. Louis will be satisfactory and successful.

**FIVE YEARS AGO**

The Louisville and Nashville Railroad Company has announced that all commuters' tickets for three, four, six and twelve months have been cancelled effective August 1. The cancellation is subject to approval by the Interstate Commerce Commission.

Protest should be filed and every move made to prevent approval of this order which would discriminate against the Gulf Coast.

**ONE YEAR AGO**

A low bid of \$6,061,433 was submitted in Jackson Tuesday by Merritt, Chapman and Scott Construction Company of New York on construction of a toll bridge across the Bay of St. Louis on Highway 90.

The contract letting is the last step before actual work is begun on the new four lane concrete structure which will be built approximately 2,000 feet north of the present battered span.

A completion date for the bridge work has been set for June 30, 1953.

Cut Down Speed,  
Cut Driving Costs

The automobile driver who cuts down on his speed, also cuts down on his driving costs.

Claude M. Seay, well-known Mississippi Insurance Executive and Vice-President of the Mississippi Safety Council, made this blunt observation while discussing the traffic safety program of the State Safety Council, the Highway Patrol and the National Safety Council. The Safety Agencies, this month, are stressing "speed control" as their traffic safety theme.

"At the pocket-book level," declared Seay, "driving costs go up every time the driver steps on the accelerator." He pointed out that when speed is increased from 40 to 65 miles an hour, gasoline costs jump almost 30 percent. He said the cost of oil consumed goes up almost four times when speed is increased from 40 to 65 miles an hour. "And at the same time," he explained, "the cost of wear and tear on tires are two and one-half times as much at the higher speed."

And the most tragic part of excessive speed, warned Seay, "is that it's costly in terms of human life." He cited records of the Mississippi Highway Safety Patrol to show that so far this year "one out of every five fatal accidents" was the direct result of some speed violation.

Referring to figures compiled by the National Safety Council on the National level, Seay pointed out that during the past year excessive speed was a factor in one out of every three fatal accidents. He said approximately 10,000 persons were killed as a result of these accidents.

"So far this year," he said, "upwards of 142 deaths have been caused on Mississippi highways and even more will be caused if the driving public does not come to the realization that 'speed kills'."

The Safety Official listed several factors that drivers should consider before they determine just how to push the speedometer needle. They are the weather, the condition of the road and traffic, the mechanical condition of the car, and the driver's own physical condition, in addition, congested traffic, in heavy pedestrian traffic, storm conditions, under-pair lights or brakes, a bad headache or extreme fatigue are examples of traffic situations drivers should recognize as "slow-down" signs.

WELFARE IS  
NATION'S DUTY

by J. A. THIGPEN, Commissioner

Shall we cut out welfare and have our streets and highways cluttered with beggars, our homes broken into, and our groceries and money stolen to supply the hungry? Or shall we recognize that we are our brother's keeper and try to do what our finances will permit to assist the needy blind, the unemployables, the destitute and forsaken children, and the broken-down old people? Which should a Christian nation do?

Time was when the mention of "social" or "welfare" created in me about the same reaction as waving a red flag in a bull's face creates in the bull. I have come to realize, however, that when I bowed my back, lowered my head, and charged in rage at something which at first sight did not please me, I was not using any more intelligence than a bull uses when he charges a red flag. Since that fact dawned on me I have not been violently opposed to anything, but have tried to use what intelligence the Lord gave me to investigate the reasons behind any action to find out the need for such action.

In investigating Welfare, I found out that, before Welfare, blind beggars and other beggars, were seen daily on our streets. Almost every week someone's home was broken into and their valuables stolen. Reports came of people in dire need and a public collection was taken. Today, a beggar is seldom seen on our streets. It has been months since a home has been broken into in my community. Not often is there anyone

in dire need, even though our present economy tends to create more need, due to people leaving the farm where house rent was free and everyone could have gardens, chickens, eggs, pigs and cows.

Really, when we look at it, if we consider that any pooling of resources for the good of all is socialistic life insurance is socialistic for one may die after paying one premium, while another may pay premiums during a long life. One gets \$1000 for an \$18 contribution, while the other pays \$1000 for a return in sixty years of \$1000. Even our most conservative people have life insurance, and approve of it. Yet when we say that the unfortunate will get tax refunds in the form of welfare checks for whatever small contribution they have made to government, and the more fortunate keep on paying beyond what they receive back, it is termed socialistic.

We have Welfare. We will have to keep it unless we want to overthrow every concept of the Christian religion as to our being our brother's keeper. Of course, it is not perfect - nothing human is. In dealing with 97,000 people, the law of averages would indicate some dead-beats, possibly more than in other things, due to the fact that this is a "give-away" program. Let's quit "cussing" welfare and join hands to see that it reaches those for whom it was intended.

Mrs. J. Galaspy and young son of Monroe Louisiana, have been visiting her parents, Mr. and Mrs. A. E. Middleton.

Mr. and Mrs. Louis Wyman had as their guests Miss Annmarie Jones, of Little Rock, Arkansas, and Mrs. Lillian Alexander of New Orleans, last weekend.

## GULFPORT TO HAVE ANOTHER BARGAIN DAY

Merchants in Gulfport are this week putting finishing touches to their plans for offering large numbers of special values in all lines of merchandise on Community Bargain Day, Wednesday, June 18.

L. J. Hensinger, chairman of the Merchants' Committee, reported that Bargain Day will offer customers some of the best values found in Gulfport in many years. He explained that merchants had been buying for this event for two or three months and there will be larger varieties and greater quantities of "good merchandise from which shoppers can make selections than have been provided in the past.

To make shopping more convenient for shoppers, and to put on a festive air, the merchants committee has obtained permission from the city to cap the heads of all parking meters in the downtown area with paper sacks, permitting motorists to park during shopping hours, 9 a.m. to 6 p.m., without charge.

Store clerks have been alerted to give special attention to out-of-town shoppers and to display that Mississippi hospitality smile.

Officials of the Gulfport Chamber of Commerce reported that the million dollar Dollar Day last February was one of the biggest if not the very biggest trade event ever staged in Gulfport. They plan next Wednesday to show their appreciation by offering more and greater bargains on Community Bargain Day.

## Gov. Byrnes Urges South To Maintain States' Rights Unity

Cleveland, Miss. (Special) — Governor James F. Byrnes of South Carolina issued a stirring call to the people of the South to remain loyal to the principles of States' Rights in an address here before the Delta Council.

Reminding his audience of the common interests and outlook shared by Mississippians and South Carolinians, he urged that the people of all Southern states maintain a determined political unity. "Today some persons state we are alarmists," he said, "that the things the political leaders of the South feared would happen do not actually occur. That was not the fault of those now in control of the National Democratic Party. During the past four years the National Democratic Administration has been more antagonistic toward the South than any Republican Administration since the Reconstruction period. On several occasions the Democratic Administration has urged Congress to enact laws which would suppress state laws and adversely affect our way of life."

He continued, "Why should we vote to place in power any person so antagonistic to us that in advance we must plan to save ourselves by a coalition with legislative opponents of the party or by a filibuster?"

"It cannot be said that we have no alternative because the Republican Party favors many of the objectionable proposals urged by those now in control of the Democratic Party. We are forced to affiliate with either of those national parties. If we do not receive sympathetic consideration from the National Democratic Party, which we have loyally supported throughout the years . . . we can support the candidates of a third party."

"The biggest minority in this country is composed of the white people of the Southern states. We abhor the division of the people into classes. But we have witnessed the success of the efforts of the organized minorities in the National Conventions. Their efforts are directed against us. It is necessary that the minority to which we belong, in defense of ourselves, should act in concert."

"The Democratic Party of Mississippi is a political organization of your state. It is entirely independent of any national political organization."

"In the general election for President and Vice President of the United States the voters of your state can vote for the candidates of the National Democratic Party . . . or a third political party."

"I hope that the Democratic Party of this and every other Southern state will refrain from the general election until after the adjournment of the conventions of the National Democratic

## Miss Hospitality Entry Deadline Extended To 17th

The deadline for entering the state-wide "Miss Hospitality" contest to be held in Jackson and on the Gulf Coast July 5 - 8 has been extended from June 10 to June 17, William E. Barksdale, Director of the Agricultural and Industrial Board, announced this week.

Official entry blanks have been received from 13 communities to date and 13 other girls have been selected by their communities, making a total of 26 local "Miss Hospitality" girls entered to date.

Over 100 Mississippi communities, however, are participating in "Hospitality Month" activities, and the deadline was extended this week to give these organized Community Travel Development Committees an opportunity to select and enter their representatives.

"Girls who have been away at school have been considered among the possible candidates in many towns," Director Barksdale says. "So we have extended the time limit so that these returning students may have an opportunity to compete locally."

## Lighter Branding Regulations To Be Introduced

In order for all cattlemen to know the facts about Mississippi's new state-wide cattle branding law, Justin H. Doak, Executive Secretary, of the Mississippi Cattlemen's Association has prepared the following digest of important points:

1. Will become effective on July 1.

2. Every cattleman who has his cattle branded now, must register his brand with the Livestock Theft Investigation Bureau, Highway Safety Patrol in Jackson.

3. It shall be unlawful to brand cattle without first registering proposed brand. If cattle are not branded now, everyone is advised to wait until after July 1, and apply for registration of brand before putting it on. Someone else may have the proposed brand in use, and recorded.

4. Application forms for registration of brands will be available at County Agent's and Sheriff's office by July 1.

5. After July 1, the Chancery Clerks in the various counties will not record any brands. The same applies to the Secretary of State. Only one book of brands will be kept, and that in Livestock Theft Investigation Bureau.

6. Cost of registering a brand is \$2.00. Each five years the change for registration of brands is \$2.00.

7. It is a matter of some protection to the future use of the brand already in use if it is recorded with the Secretary of State. According to the law "Those brands which have been filed with the Secretary of State on or after January, 1946, give the owner priority to the use of such brand, and in the event of duplication, the brand first recorded with the Secretary of State shall have priority over any same or similar brand filed with the Secretary of State thereafter." So one may want to register his brand with the Secretary of State prior to July 1.

Cost is just ten cents—Address Heber Ladner, Secretary of State, New Capitol building, Jackson, Mississippi.

8. Even though a brand is registered with the Secretary of State, one will have to re-register his brand with the Livestock Theft Bureau after July 1, and pay the \$2.00 registration fee or he will lose his brand. Same applies if he is registered with the Chancery

Clerk.

9. No duplication of brands will be recorded. In the case of duplication of brands as shown by application (after brands recorded with Secretary of the State are recognized) the owner of the brand who first records with the Livestock Theft Investigation Bureau will be recognized.

10. If some one beats another to the draw on a brand and registers first, the second party will have to adopt a different brand.

11. This law does not require one to brand his cattle. However registration is compulsory if a brand is used.

12. Ear marks are not considered as brands. A brand according to the law is any mark burned into the hide of a live animal.

13. Starting on July 1, the operators of every livestock market where cattle are sold, together with all dealers, slaughterers, and butchers buying cattle for slaughter which were not purchased at a livestock market shall keep a record for at least two years of all cattle received which shall show the name and address of seller, the number of animals received, and a description of them, including a description of any and all brands used to identify the cattle as well as the license number of the truck, or record other method of transportation.

14. Livestock hide dealers must also keep a record of all hides of cattle received, which shall include name and address of the person selling, a description of hides, brands and other identifying information.

15. The purpose of this act is to provide one place for the registration of brands of cattle and other livestock, in order to avoid confusion and duplication as to brands to protect the owner of cattle and other livestock against theft, and to aid the special livestock theft investigators in tracing the movement of cattle when stolen, apprehending such thieves, and returning cattle to the rightful owner thereof.

### SUMMARY

(16) Summarizing - It shall be unlawful for —

(a) Any person to use any brand for branding cattle unless the brand is registered;

(b) Any person to obliterate, alter or deface the brand of any animals;

(c) Any livestock market to receive and sell cattle unless records of such sale are kept in accordance with the requirements of this act;

(d) Any livestock market to fail to keep a copy of the register of brands furnished to them by the Department in a place easily accessible to interested parties;

(e) Any hide dealer to fail or refuse to keep records of hides as provided by this act.

(17) Any person who violates any of the provisions of this act

## POLIO PLEDGE PREPARED BY FOUNDATION

Branches of the federal government are cooperating with the National Foundation for Infantile Paralysis in assuring widespread distribution of 35,000,000 copies of the 1952 "Polio Pledge" for parents, prepared by the March of Dimes organization.

Earl James McGrath, United States Commissioner of Education, as well as the United States Post Office Department, have endorsed this annual project to alert American children and parents to safeguards which may lessen the possibility of contracting paralytic polio.

McGrath, according to the pledge's distribution through the schools of the nation, said, "The 1952 message about polio precautions, entitled 'Polio Pledge,' has been made available to all the schools in the country. I recommend that administrators and teachers give all possible help to the National Foundation and its Chapters in this school and community health program."

The Pledge, in poster form, will be displayed through October 31 in the nation's 44,500 post offices.

shall be guilty of a Misdemeanor; and upon conviction, shall be punished by a fine of not less than twenty-five dollars (\$25.00), nor more than five hundred dollars (\$500.00), or by imprisonment for a term of not more than six months or both at the discretion of the court.

(18) This new branding law was recommended to the 1952 Mississippi Legislature for passage by the Mississippi Cattlemen's Association.

Here, in abbreviated form, are the essential precautions listed in the 1952 "Polio Pledge":

1. Avoid fatigue from work or play.

2. Don't get chilled. Don't swim to long in cold water nor sit around in wet clothes.

3. Don't mix unnecessarily with new groups. Don't take children out of camp where there is good health supervision.

4. Watch closely for signs of illness... headache, fever, sore muscles, stiff neck or back, trouble in breathing or swallowing.

5. Put a sick person to bed at once away from others, and call your doctor. Follow his advice.

6. Contact your local March of Dimes Chapter for whatever assistance or financial help you may need.

## "LORD, TEACH US TO PRAY"

Long before Christ came upon the earth, men were resorting to prayer for divine help.

The people of Israel, we know, realized the power of prayer and prayed often in appeal for God's blessing in gratitude for His favors. Almost every one instinctively feels the need for prayer in time of danger and emergency.

Many people, unfortunately, do not know how to pray properly. Even the Apostles, watching as Jesus prayed, became conscious for the first time of the mighty power of a proper prayer. They could see on the Savior's face as He prayed, the reflection of a great inner peace and refreshment.

So they said to Jesus: "Lord, teach us to pray."

And Christ replied: "Pray thus... Our Father Who art in heaven, hallowed be Thy Name.

"Thy Kingdom come, Thy will be done, on earth as it is in heaven. Give us this day our daily bread.

"And forgive us our debts as we also forgive our debtors. And lead us not into temptation, but deliver us from evil."

The words of the "Lord's Prayer" are enshrined, of course, in the hearts of Christians everywhere. And yet Christ, in giving us this most beautiful prayer of all, did not tell us to "Pray this." He said: "Pray thus."

He meant that we must pray with the realization that God is truly our Father... that His Name is to be revered as no other... that His Will is to be done here and hereafter... that we are to be truly

sorry for our sins, and others, and we are to avoid sin.

People who realize the value of prayer usually find that they have tried to and didn't work. They are by this, of course, that

did not grant the things for which they prayed. A better understanding of proper prayer would be clear to them that prayer is God's favor is only one kind of prayer... and that God does not grant every favor which we want or think we need.

Proper prayer is not merely a petition for blessings, but also an expression of our love, our devotion and our gratitude to God... a declaration of our acceptance of God as our Father... a submission of our wishes and our will to the wishes and the Will of God.

Every day... in every land and every tongue... a mighty chorus of prayer rises from the hearts of Catholics to honor God—to implore His blessing—to pay Him grateful thanks. For the Church teaches... and Catholics know... that there is no power in the hands of men so great as the power of prayer.

The most famous collection of prayers known to history is the Book of Psalms... prayers in which God Himself teaches us clearly the dispositions with which we should pray.

To help you in your prayers, we will send you a beautifully illustrated edition of the Book of Psalms free of charge. Write today and ask for your copy of Book of Psalms No. 11—KC.

County Agent's Notes  
Production Bred,  
Fed And Managed  
Cows For Profits

By HOWARD SIMMONS

**DAIRY**  
Production bred cows, produce milk and production managed herd make for cheaper milk production and higher net profits.  
Breed top bulls to good cows. Cross breeding is not recommended. Breed Jerseys to Jerseys, Guernseys to Guernseys and Holsteins to Holsteins. Maintain one predominate blood line.  
High quality roughage pays off. Try to have high quality grazing as many months of the year as possible and put up good hay and silage. Give cows all the top quality roughage that they will eat and feed grain feeds according to the milk production of the individual cow.  
If cows are getting all the

grazing and good hay or silage they will eat, feed one pound of concentrate to each three pounds of milk produced by high but-terfat yielding cows. For low butterfat producers feed one pound to each four pounds of milk.

Manage your herd properly. Cull unprofitable producers. House the herd comfortably during bad weather. Raise your replacement; do not buy them. Do not fatten calves, keep them in a healthy, thrifty, growing condition.

Protect the herd from insects. Spray regularly to control horn flies, stable flies and houseflies. Jits?gownkdpjs.

Protect your herd against all contagious disease. Milk rapidly and be on the lookout for symptoms of mastitis.

The outlook for demand and price for dairy products will continue good for the next few years, according to economists. The production per capita is lowest in years and the consumption is greatest in history.

**POULTRY**  
You cannot make money in the broiler industry by jumping in when prices are high and getting out when they drop. Good advice is to get in and stay in, or stay out.

Produce efficiently. Use the best chicks obtainable. Provide

adequate housing and ventilation, this means allowing at least one foot of floor space for each broiler; provide plenty of fresh water and plenty of good food.

Control diseases and parasites; manage your flock carefully and line up your markets at least 10 weeks in advance, don't wait and shop around.

Three year experiments with cotton plants conducted by A. L. Hammer, of the Agricultural Experiment Station, show that 98 percent of the bolls that mature will be put on in the first three weeks of blooming, provided insects are controlled.

Protect your young cotton from insect damage. Thrips, flea-hoppers, and other insects are knocking off your squares. Stop them. Beet and dairy cows both lose production when troubled with horn flies. These can be controlled with DDT, toxaphene or Methoxychlor, on dairy cows use only methoxychlor. Don't let these insects steal your profits; control them. See your County Agent.

—Mr. and Mrs. L. L. Lee had as their guests over the weekend Mr. and Mrs. Walter Lee of Metairie, Louisiana, and Mr. and Mrs. Floyd Ray Hughes and daughter, Cathy, of Keesler Field, Miss.

**NOTICE TO BIDDERS**

Notice is hereby given that the Mayor and Board of Councilmen will on Monday the 23rd day of June, 1952, at 10:00 o'clock A. M., at the City Hall receive proposals for the furnishing of all labor, materials, equipment and supplies for the application of approximately 100,000 square yards of Liquid Seal coat to conform to specifications of the Mississippi State Highway Department, to be placed on various streets and drainage ditches, Kurzu plantings, pine plantings and reseeded crimson clover planted between rows of tung trees. Pictures will be used for educational meetings in furthering Soil Conservation in the district.

Karl Goss, District Cooperator, in Caesar Community harvested 600 pounds of reseeded crimson clover last week. Goss will over seed 12 acres of lespedeza sericea with crimson clover in the fall for winter and spring grazing. Goss pointed out that crimson clover grows well with the lespedeza sericea, providing nine months grazing for his cattle. "Lespedeza sericea will provide summer and fall grazing for my cattle when my other pastures are dormant."

Terraces were surveyed on 20 acres of steep class III land on Roger Goss's farm last week. Roger Goss is constructing terraces prior to seeding the land to pasture this fall. S. C. S. technicians assisted Goss in surveying terraces. He plans to rotate pasture with row crops every fifth year.

Mr. and Mrs. George L. Seuzeneau Jr., had as their guests over the weekend, Mr. and Mrs. Hugh Campbell. Mr. Campbell is owner and operator of English Village tourist court located at Long Beach.

Mrs. Charles R. Johnson has received word that her sister, L. L. Col. Majorie O. Hunt, who spent several days here in May, has reached Tokyo, where she will be attached to the headquarters of the Far East Air Forces for three years.

May I take this opportunity to congratulate the voters of the county on the increased interest shown in the meetings held on June fifth to nominate members of the Democratic Committee for 1952-56. And at the same time I would like to ask the Committee which will be elected if they will use some of the time of their incumbency to instruct the voting public in the meaning and importance of the Democratic Committee. As a member of the League of Women Voters of Bay St. Louis, I was astonished at the number of people (whom I asked to go to their precinct voting places) who had not the slightest idea what the meetings were for; who, as a matter of fact, thought that that did not concern the general public.

Political enlightenment is a must in these difficult days, and the importance of the Democratic Committee in our local, state and national government cannot be overemphasized.

Yours truly,  
Adaline K. Samuel.

## Relationships Are Studied Between Soil And Church

By J. L. Bishop, Conservationist  
Sunday, May 18 was Soil Stewardship Sunday, a day set aside to study the relationship between the soil and the church. Rev. Albert L. Plynt of Crane Creek Baptist church and Rev. S. P. Powell of Caesar Baptist Church gave interesting sermons on "Why the Land Should be Protected from Erosion." To take care of the soil is man's duty and responsibility, to abuse it is sin. Good soil in a community means good churches.

John W. Bush, Regional Photographer, Spartanburg, S. C., and A. Bernhardt, District Conservationist, visited Hancock County Soil Conservation District recently to take photographs of established pastures, drainage ditches, Kurzu plantings, pine plantings and reseeded crimson clover planted between rows of tung trees. Pictures will be used for educational meetings in furthering Soil Conservation in the district.

Sir:

May I take this opportunity to congratulate the voters of the county on the increased interest shown in the meetings held on June fifth to nominate members of the Democratic Committee for 1952-56. And at the same time I would like to ask the Committee which will be elected if they will use some of the time of their incumbency to instruct the voting public in the meaning and importance of the Democratic Committee. As a member of the League of Women Voters of Bay St. Louis, I was astonished at the number of people (whom I asked to go to their precinct voting places) who had not the slightest idea what the meetings were for; who, as a matter of fact, thought that that did not concern the general public.
